

Traffic on Springvale Road

PROJECT OVERVIEW
OCTOBER 2019

MORDIALLOC FREEWAY

We're connecting the Mornington Peninsula Freeway to the Dingley Bypass

Project benefits

The Mordialloc Freeway will slash travel times and ease congestion in Melbourne's south east, providing a safer, more reliable journey.

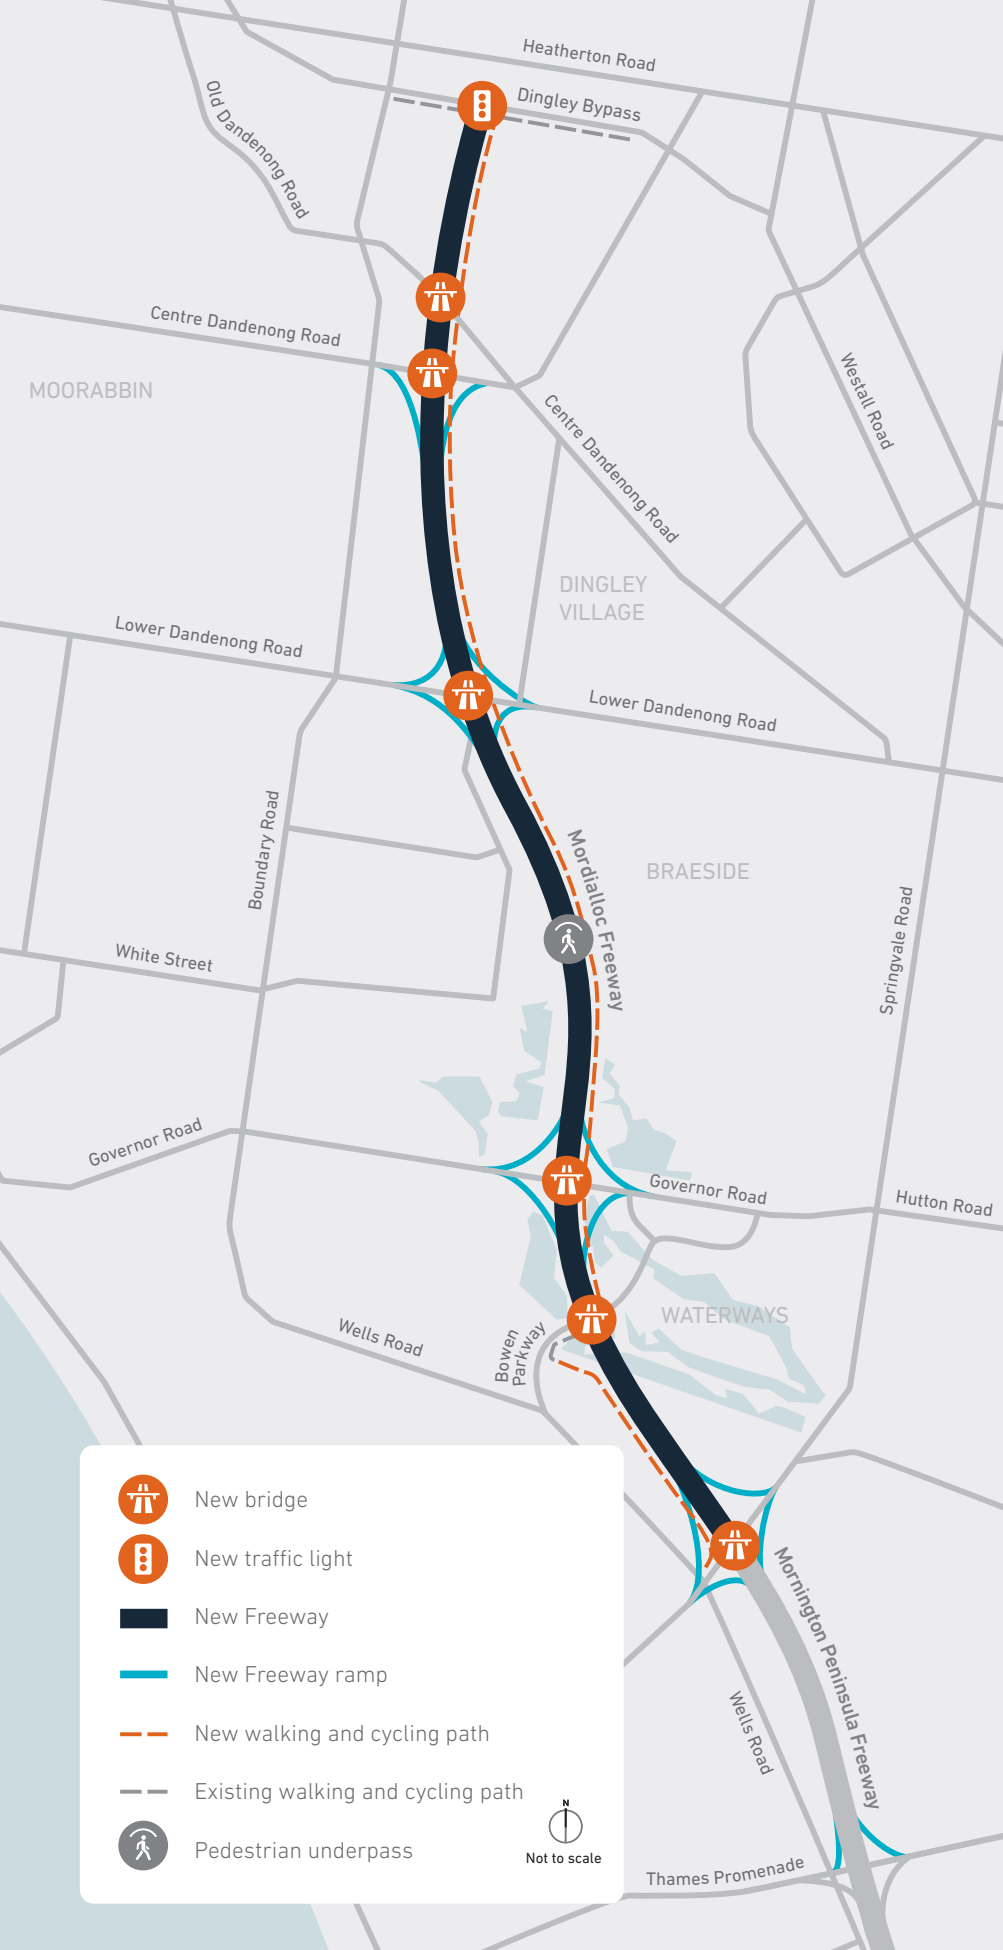

The project will take 13,000 trucks off local roads, giving local roads back to local residents.

Project overview

As part of the new 9-kilometre Mordialloc Freeway, we'll:

- build bridges over Springvale, Governor, Lower Dandenong and Centre Dandenong Roads, along with new freeway entry and exit ramps
- build bridges over Old Dandenong Road and the Waterways wetlands
- upgrade the existing interchange at Thames Promenade to include new entry and exit ramps for the Freeway
- build a new shared walking and cycling path along the entire Freeway.

-  9kms of new Freeway constructed
-  13,000 trucks removed from local roads
-  75,000 daily journeys by 2031
-  400 jobs created during construction

Traffic on Wells Road

Timeline

2017

- Mordialloc Freeway announced
- Project referred under Environment Effects Statement Act
- Project referred under Environment Protection and Biodiversity Conservation Act

2018

- EES investigations undertaken
- Request for Tender opened
- EES Public Exhibition

2019

- EES Public Hearings
- Preferred tenderer announced
- EES Assessment released

Late 2019

- Final project approvals received
- Contract awarded
- Construction commenced
